1. In order to avoid conflict we have set these rules of open play.
2. Paddles should be placed on the floor in a left to right progression to determine who is next up to play. Do not move paddles.
3. If all four pickleball courts are being used, then all four players come off the court when they finish their game, and the next four who are waiting go in to play
4. If we have 8 or less players waiting winners stay on the floor. Winners can stay for 2 games before having to rotate out.
5. If there are 4 or more pickleball beginners, one open court shall be designated a court just for beginners.
