

TREE PLAQUES

The City will purchase a plaque to place at the base of the purchased tree. The Parks Division request that only one plaque be placed at the tree.

The information for the plaque should be filled out in this brochure.

The plaque is guaranteed for 5 years.

PARK TREES

These trees are living memorials in our parks. No other ornaments are allowed.

Trees are guaranteed for 2 years from the day they are planted.

Trees For North Platte Parks

This is a long-term tree planting project to beautify the parks of North Platte.

There is always a need to plant additional park trees. Trees provide a buffer from city noise, clean the air, and provide shelter for birds and animals. Thus, trees in our parks are an invaluable resource which should be constantly renewed.

Tree Selection

When you decide to plant a tree in one of the parks, go to one of the local nurseries and pick out your favorite tree with this checklist in mind:

*Look for a shade tree 8' to 12' or an ornamental tree 6' to 8' in height.

*Look for a shade tree 1 1/2" to 2" or ornamental tree 1" in diameter, 12" from the base.

*Look for a straight single stem. (No double leaders or multiple branches of stems.

*Check for severe pruning cuts.

*Inspect for dead bark, unusual marks, or insects on the trunk or branches.

*Ask for no paint on wounds or pruning cuts.

City Notification

When the Parks Division has been informed that there is a tree available, it will be picked up and planted within the last two weeks of April, last two weeks of September or when the season permits.

Cemetery Plantings

Trees may be purchased for the cemetery if room allows for it. Since the person honored has his or her name on their marker, there will not be a plaque made for this tree.
